## Objective

---

Motivated Diploma in Computer Engineering student at Parul University with a strong interest in Frontend Web Development. Skilled in HTML, CSS, JavaScript, Figma, prompt engineering, and AI-assisted development tools. Experienced in building responsive web interfaces and academic projects, with a focus on user-friendly design, modern UI/UX principles, and continuous technical learning.

## Education

---

### Parul University

2025 – 2028

*Diploma in Computer Engineering*

- Department: Diploma of Computer Science and Engineering; completed 1st year and currently pursuing 3rd semester.

### Shree Swaminarayan Gurukul Secondary & Higher Secondary School

2024

*Secondary School Certificate*

## Experience

---

### InAmigos Foundation

July 2026 – August 2026

*AI Web Development Intern*

- Develop responsive and user-friendly web interfaces using modern web development technologies.
- Collaborate with mentors and team members on AI-assisted web development projects.
- Apply AI tools and prompt engineering techniques to improve development efficiency and workflow.
- Participate in project discussions and code reviews to support effective project development.

## Projects

---

### Personal Portfolio Website

- Designed and developed a fully responsive portfolio website to showcase technical skills, projects, and contact information.
- Built the interface using HTML and CSS with a focus on responsive layouts, clean presentation, and user-friendly navigation.
- Deployed the portfolio website on Netlify and maintained the project using GitHub.

### Caves Cafe Website

- Designed and developed a fully responsive cafe website featuring a modern and visually appealing user interface.
- Implemented an interactive menu, intuitive navigation, and mobile-friendly layouts to provide a seamless user experience.
- Applied responsive web development and modern UI design principles to improve usability across screen sizes.

### Figma UI/UX Design Projects

- Created multiple user interface designs and interactive prototypes using Figma.
- Applied modern UI/UX design principles and component-based design practices to develop consistent interfaces.

## Technical Skills

---

**Frontend Development:** HTML, CSS, JavaScript

**Design Tools:** Figma, UI/UX Prototyping, Graphic Design

**AI & Productivity:** Prompt Engineering, ChatGPT, Claude AI, Cursor

**Version Control:** GitHub

**Other:** Basic Networking

**Soft Skills:** Communication, Leadership, Discipline, Teamwork

## Certifications

---

- AI Web Development Internship Certificate – InAmigos Foundation (via Internshala), July 2026
- Networking Basics – Cisco Networking Academy, Parul University, July 2026
- AI Tools Workshop – Be10X, July 2026
- Figma Certification
